MAT CUTTING & MOUNTING

Re-usable Hinged Mat

A hinged mat is a backing of 5 mm foam core or mat board with a hinged mat attached to the front. The print is tacked in place between the two, so you can open and replace the print later. Not to be used for permanent framing or display, as the print may ripple over time.

Permanent Sealed Mat

A sealed mat is produced by permanently mounting the print to card or foam core, and then gluing the mat over the print. Both card and mat are trimmed flush to each other, making it almost impossible to get to the print without damage.

Colour Choices

We stock Arctic White, which is a bright white, Solar White, which is a slightly creamier white, and Black, which has a white core.
